On the find it entirely free from any deleterious ingredient. On the contrary, its component parts comprise a beverage which I have never seen equaled for its anti-billious, tonic and invigorating properties. I have used it myself as a cholagogue, and I have prescribed its use for my patients. I commend it unhesitatingly as a refreshing and an eminently healthy drink for our tropical climate. I consider it the best thing of the kind that I ever met with.

a period of Five (5) years. The terms will be made known at the time of sale, or can be had on application at the laterior J. MOTT SMITH, Interior Office, June 26th, 1877.

BRIEF MENTION. LOOK at Friel & Bush's advertisement in to-day's paper, all you that love good eating. WHAT'S THE MATTER with Kerosene? Every-

body is complaining. The proximity of Mars, perhaps, or the Pennsylvania riots. THE TRIAL TRIP of the Likelike to Kauai satisfied

all on board that she is everything that can be dered as an inter-island steamer. Some peculiarry pretty goods, such as jewelry and fancy things are to be seen at Afong & Achuck's,

just arrived from China-if, indeed, they are not already sold. THE BENEFIT to Kennedy and Cheevers, the Buffalo Boys," at the Hawaiian Theatre, was a splendid success. The benificiaries were peculiarly happy in all their efforts; but the "burlesque opera" was very, very side-splitting

SEWING MACHINES.-Thos. Lack, Fort street, the regular agent of the Florence Sewing Machine, informs us that his prices are now 45 per cent lower than before, as for instance: Family Machine, Waimanalo. The Queen Dowager will arrive at these are with all the extras. "O MY PROPHETIC SOUL!"-Mr. Wilder, in his

peech at the lunch on board the new steamer, is

eported to have said-"If I ever build another boat, and I mean to," &c. We hope he will; being inspired with the belief-from the result of the present effort-that he knows how. WE ARE barpy to hear of the safe arrival at Newlyn near Penzance, on June 22nd of the " New Bedford " an open boat having for her crew only the captain and his wife, after 49 days across the

Atlantic. Both the man and the woman suffered much during the voyage, but were recovering fast from its effects. MUSIC THIS AFTERNOON .- The band will play at Emma Square, commencing at 5 o'clock P. M. Following is the programme : March—Queen Kapiolani.....Berger
Cavatina, Opera—Falstaff.....Balfe
Selection Opera—The Bugenots....Meyerbeer
Polka—Zertina, Cornet Solo.....Etting

Grand Selection Opera—Martha...... Quadrille Opera—Pine Beard THE DANCE OF DEATH .- What a fearful title! But this is on the title page of a very neatly bound and handsomely printed little book of 130 pages, left on our table by the author's agents, Messra. Thrum & Oat. It is a strange book, take it all in all, and for

the sake of a sensation, we advise everybody to buy it. STOPPED THE WATER .- A panic was experienced in the town this week by the announcement by the Superintendent of the Water Works that the water in the pipes would be shut off on Thursday and Friday. Not to say that the water was really shut off as threatened, for in these matters, unfortunately, we are reminded of the cry of "wolf, wolf;" but we only refer to it for the purpose of remark-ing that some very funny episodes resulted from the threatened stoppage of water. Some people can't get along without a bath in the morning.

MENU A LA HAWAIIENNE .- Some of our readers will remember a German Doctor who resided for a time on these islands, longer perhaps at Lahaina than elsewhere, and who was noted for possessing an ex-ceptionally robust appetite. Some one at San Fran-cisco sends us the following jeu d'esprit of our friend

the Doctor:
"Menu of an Hawaiian Lunch at Dr. J. Bechtinger's residence, August 11th, 1877. I. Palani, Kini; II. Chinese Shrimps, Raw and boiled Fish in Tileaves; Pork a la Chinoise with Poi, Pickled Bamboos, Dried Fish, Dried Squid with Taro; IV. Chicken Soup, Chicken Roast, California substitute of Ilio, (Dog Steaks); V. Substitute to Awa: English Ale, Bordeaux Maraskino, Champagne."

KNIGHTS OF PYTHIAS .- A very pleasant affair came off at the Castle Hall of Oahu Lodge No. 1, K. of P., on Wednesday evening last, the occasion being the presentation on behalf of the members of a uniform and sword to Past Chancellor Bro. Geo. Williams, who has filled the position of pre-siding officer of the Lodge with great acceptance for no less than five consecutive terms. Quite a number of invited guests were present, and speeches most appropriate to the occasion and the subject of Mutual Ald Societies were made by Messrs. D. N. Flitner, C. S. Bartow, Geo. Lucas and others. Deputy Supreme Chancellor David Dayton, in-stalled the officers for the ensuing term.

JUST RECEIVED this week, a lot of new useful articles necessary to every housekeeper, among which are Napkin Holders, Nutmeg Graters, Pie Plate Lifters, Empress Knife Polisher, Pie Crimpers, Pottage Tongs, Friction Mats, Scissor Sharpeners, Camphor Stones, Perfume Shells, Broom Holders, Bias Guages, Magic Plaiters, Bonanza Paring Knives, Magic Cement, Little Giant Tack Hammers, Lamp Shades, Hair Crimpers, (New), etc. etc. These articles are all new and cheap and will speak for themselves upon inspection. For sale at A. L. Smith's, Fort St.

about to relate be called a romance. We regret that pose goes proportionately towards her support. space will not allow of particular detail or reportorial embellishment. Mr. W. L. Wilcox is the owner of a but an ignorant or drunken captain. nice sail boat, which he keeps moored off the end of last she disappeared from her place, and on Thursday, a coaster coming into port from leeward reported having seen the boat "dawdling" along towards Waianae, with a man on board. The owner of the pirated boat thereupon put to sea in another craft in search of his property. He had no difficulty in over-hauling the pirate, who was no doubt exhausted from want of sleep, and was allowing his ship to drift at the mercy of the winds and waves. But when called upon to surrender, apparently with more bravery than discretion he showed fight with the tiller, and was only induced to haul down his colors by the presentation of a revolver at short range, and thereupon he became the very reverse of brave, was ironed and brought to Honolulu. Gar reporter, who interviewed him at the station house yesterday morning, came to the conclusion that Henry -the name he gave-is more knave than fool, althe name he gave—is more knave than fool, although he displays some of the qualities of both. He says he was born in Liverpool; is only sixteen years of age; (evidently 25 at least) is an orphan; meant to run away from the Abeona, a British ship discharging at the esplanade; put his chest and clothes on board the boat for the purpose of subsequently removing them to the shore; but that by some means the boat got unmoored and drifted out to sea, with him! so that the boat stole the man, in fact. Howprise, for with the strong trade winds almost constantly blowing here, he was very liable to have gone off on the trackless bosom of the wide Pacific, without food or water. The case will probably come up in the Police Court this morning.

| Astronomers say. A ray of light, travelling from our sun to the earth, takes eight minutes to reach us: so that a ray of light from sirins, traveling at the same rate of speed to our planet, must take 150 days before arriving at our earth!

THE VOLCANO.-We are informed that the oldtime crater of Kilauea is again very active.

TWENTY-ONE more male Chinamen arrived per

steamer City of New York on Thursday. A good name for a beaten general-Shirk-

off-shy!

THERE IS a rumor that Lord Beaconsfield is about to retire, and that Lord Derby will be his successor as Premier. WE LEARN by the latest papers that Admiral

d'Orsey telegraphed to the British Admiralty, before taking any steps in the matter of the Huascar. INFORMATION GIVEN .-- A Correspondent sends us the following: "In reply to query in Wednesday's Gazette, I beg to say that 'To the manner born' is from Shakspeare's play of Hamlet, Act 1, Scene 4."

WE RETURN our thanks to our home correspon dent for the latest files of the leading journals of the three Kingdoms-the London Times, Glasgow Mail, Irish Times and Dublin Freeman, from whose colums we may extract some interesting items of news.

Another New Enterprise .- We understand that Mr. Eckhart, recently of Fort Street, Jeweiler, bas patented a process for curing beef which is likely to become of great value in these islands. The process is a purely scientific one, and you have only to get a smell of the prepared beef to want some of it to eat. Here we have a way of getting rid of our beef cattle in a very satisfactory manner.

A LADY TEACHER in one of our public schools, in neatly worded note says that it is proposed to have monthly review of the work of the school, and asks us to direct public attention to the fact. We do this with the more cordiality from the fact that school teachers and newspaper men are really in the same business, that of educating mankind. We beg to say just here, that we concede to the former the position of first importance.

A GOOD EXAMPLE.-Her Majesty Queen Victoria has quite recently commuted the capital sentence of a woman named Fanny Stallars, sentenced to be hanged at Winchester. This act of royal clemency occurs most opportunely, at a time when we are engaged in advocating the commutation of the capital sentence of the felon now awaiting death doom in Oahu Jail. We earnestly hope that King Kalakaua will imitate the bumane example of her

gracious Majesty. WE translate the following paragraph from the Journal des Debats, of Jane 21st, for which we are indebted to the courtesy of the French Diplomatic Commissioner at Hawsii. "The general council of Guadeloupe, (W. I.) has just forwarded to the Chamber of Commerce of Paris a number of copies of the programme relative to the prize of 100,000 francs, which it has decided to confer upon the inventor of a new process of extraction of the cane

QUEEN EMMA'S PROPOSED TOUR .- "We hear," says the Kuokoa, " that it is the intention of Her Majesty the Queen Dowager" Emma Kaleleonalani to make a tour of the Island of Oahu-after Her Majesty's long residence in this Metropolis during the past years. Her Majesty will set out from Ho-nolulu on September 5th. prox. and will proceed to on the 10th; at Punaluu on the 12th; at Laie on the 18th; at Kabuku on the 14th; at Waialua on the 15th; at Ewa on the 17th; and will return to Honolulu on the 18th of next September. We wish Her Majesty a pleasant journey and safe return home." We notice that our Hawaiian contemporary calls Oabu "the Island of Kakuhibewa"-ka moku o Kakuhihewa nei! the origin of this name is traced to an ancient King of Oahu who lived before the conquest by Kamehameha.

To the Editor of the Pacific Commercial Advertiser : Sin:-In your paper of the 18th and the Hawaii an Gasette of the 22nd appeared very severe, even more than severe, remarks about a letter written by the correspondent of the S. F. Chronicle to that paper. As only a tew of the Chronicles containing the said correspondence are received here, and as the Public has some right to know what concerns the public, it would be but Justice that at least one of the papers should reprint the aforesaid letter, so that the Public might judge about the "scurrility" and "tissue of willful lies." To run a man out of the country, or send him trotting out of the city, for writing a letter, is hard language, and the Public wants to know where the scurrility or tissue. of lies are.

That the newspapers point out neither sourcility or willful lies, looks, the least to say, rather suspi

To the Editor of the Pacific Commercial Advertiser DEAR SIR :- I take the liberty to call your attenion to an article in a periodical "The Sugar Cane " for June 1877, as, no doubt it would interest many, that do not see that magazine, to read the article. It is about the "The present position of the West India, Colonies." Through importa-tion of coolies from India Trinidad and Barbadoes have become prosperous. The coolie from a state of starvation or poverty in India has become happy in the West Indies; he has got a small happy in the West Indies; he has got a small "land estate" of his own, that will descend to his children; and he has given up all thoughts of ever returning to his native land. At the same time the West India planter has got labor at a cost that enables him also to prosper in raising sugar. As we are situated now on these Islands, labor is daily becoming more and more in demand. From ten dollars per month for field work we have now got up to 15 to 18 dollars monthly have now got up to 15 to 18 dollars monthly wages; and going on at this rate we will shortly find out, that the benefit of the Treaty will be lost

not to be had at a reasonable price. It seems appropriate at the present time to agitate the immigration question. My suggestion to you to reproduce the article above referred to springs from a desire, that reliable information may be diffused throughout the lalands on a subject of so vast an importance as regards the welfare of us all. Respectfully Yours, A PLANTER.

To the Editor of the Pacific Commercial Advertiser : Str.—Thinking that editors are the proper persons to be burdened with the duty of ventilating public grievances, I wish to lay on your shoulders our's of Molokai. And that is, the steamer, or rather, the absence of one from our island. Of what heineus orime have the people (tax-payers) of Molokai been guilty, that the steamer should so persistently avoid the Island? leaving her people to find their way to the Capital or Lahaina by boats and canoes, thus exposing them to the danger of being capsized. There has been a good deal of loss of life in that way. To be sure, such lives may not have been considered way. be sure, such lives may not have been considered very valuable, as the fact of having a leper settlement on a small part of the Island, seems to have cast a stig-ma on the whole. One of the public idels, once our's also, is reported to have said that he "did'nt go a cent on Molokai," and that it was unnecessary for the Royal Commissioners to visit her as there was no chance of starting large plantations here.

It has always been a mistaken belief of the people

American Cyclopædia, Takes pleasure in calling the attention of the public to this great enterprise, which brings a library into every man's household. The American Cyclopædia is the grandest work ever published in America; it is the knowledge of the centuries boiled down, the essence of all books crystallized. It stands on your shelves ready to answer every conceivable question, and gives in brief paragraphs the results of other men's years of toilsome investigation.

In this age no one has time to grope among the thousand and one different works for every fact required, even if the volumes stand on his shelves; while with a Cyclopædia, the matter in question is found at once, digested, condensed, stripped of all that is irrelevant, and verified by a comparison of the best authorities. Moreover, this compliation has been performed by special writers, who are the highest suthorities upon the subjects with which they deal; so that this work is the epitome and ultimatum of all knowledge, and precludes the necessity of having other books. You are probably spending dollar after dollar for books which are only of limited scope, whereas the same money expended in the same small amounts for the American Cyclopædia, will purchase a library complete.

It is not obligatory to take all the volumes now published upon the first delivery; a volume may be delivered once a month, or once in two months, at the option of the subscriber, and can be had in Library Leather, half Morocco or Russia bindings, ranging in price from \$5.50 to \$11.00 per volume.
